Make Up for Fall 2011

Nude Makeup: Fast, easy, natural and fresh. All you need is a foundation tone that perfectly suits you, a neutral eyeshadow shade, a touch of mascara, a bit of blush on your cheekbones and nude lip-gloss to complete the look.

Vampy Lips: Everything from orange and red lipstick shades to burgundy and dark purple.

Thick Eyebrows: Now we can say goodbye to thin over-plucked brows since the thick natural boyish eyebrow look is in fashion.

Smoky Eyes: Smoky eye makeup is one of the hottest fall/winter 2011-2012 makeup trends. The only thing that changes about smoky eyes is the eye shadow shades.

Eyeliner: This fall the trend moved from thin winged eye lines to thick lines covering almost all the lid.

Orange Eye Makeup: Many designers used orange eye makeup in their new collections. From warm autumnal orange eye shadow shade to acid orange mixed with a dab of pink.
